Light Tower is patented and is a registered trademark, Worldwide No. PCT/RU 2005/000463. Australian Patent 2005401418. Patent for invention No. RU 2192581C1 emergency lighting tower was given in 2001. Printed May 2014.

Remote Site, Worksite and Emergency Wide Area Lighting

THE LIGHT TOWER

A bright light for any situation

Roads / Event Parking Areas

Night Roadworks

Night Emergencies

Event Promo Signs

Night Events / Emergency Rest Areas

- Simple and rapid deployment by 1 person in just minutes
- A proven solution for large area illumination - up to 10,000M²
- Operates remotely (with generator)
- Easy to transport (fits in car boot)
- Safe to use among crowds
- Robust for emergency and worksite illumination
- Much cheaper than conventional wide area lighting sources
- Suits all worksites, mine sites, public events and all emergency situations

The Aust Light Tower is a unique, easy to deploy and cost effective solution that can light a wide area for almost any situation.

It's man-portable, requires no framework and can be operating within minutes.

Already in use with State Emergency Services (SES), Dept of Defence (RAAF), Aust Federal Police (AFP) Rural Fire Service (RFS), NSW Roads & Traffic Authority (RTA), Civil Airports, State Fire Services, Local Councils, Law Enforcement Agencies and Event Hire Companies. Plus many smaller commercial and domestic buyers who want a fast, safe and cheap option for wide area lighting.
